DATE/TIME OF COURSE

JUL	27	28	30
AUG	03	04	06
MON	TUE	THU	7:30PM - 10PM

ABOUT THE TRAINER

A veteran software developer with more than 10 years of experience in fullstack software development. Paul developed a passion for teaching programming during his time at Ngee Ann Polytechnic.

PAUL CHOR
HEAD TRAINER
TRENT GLOBAL COLLEGE

COURSE FEES

Original Price: SGD\$600.00

Shopee League Participant: SGD\$300.00

Students (with a valid student pass) will enjoy an additional SGD\$150.00 off!

COURSE BREAKDOWN

01

Getting started with Web Development in Flask

02

Form Processing

03

Basics of Mongodb

04

Data Processing with Flask

05

User Authentication and Login

06

Using APIs and creating RESTful APIs

07

Flask Integrations: Image Uploads and Payment

08

Deployment to Heroku

WEEKDAY 7:30PM - 10PM

WEEKEND 1PM - 5PM

COURSE FEES

Original Price: SGD\$1,000.00

Shopee League Participant: SGD\$500.00

Students (with a valid student pass) will enjoy an additional SGD\$250.00 off!

ABOUT THE TRAINER

A veteran software developer with more than 10 years of experience in fullstack software development. Paul developed a passion for teaching programming during his time at Ngee Ann Polytechnic.

His prior teaching experience includes imparting programming knowledge at the polytechnic level, infusing passion to students in the area of programming, full-stack development and mobile app development.

PAUL CHOR
HEAD TRAINER
TRENT GLOBAL COLLEGE

COURSE BREAKDOWN

01

JavaScript Refresher

02

Creating Webpages with React

03

React Router

04

Creating User Interaction

05

List Rendering

06

AJAX with Axios

07

Using LocalStorage and Firebase

08

Final Content Management Project

Students (with a valid student pass) will enjoy an additional SGD\$500.00 off!

COURSE BREAKDOWN

01

Introduction and reminders about Machine Learning

02

The basics of TensorFlow

03

Machine Learning with TensorFlow

04

Regression with TensorFlow

05

Classification with TensorFlow

06

Deep Learning

07

Perceptron and multilayer Neural Networks

08

Convolutional Neural Networks (CNN)

09

Recurrent Neural Networks (RNN)

10

Restricted Boltzmann Machine and Neural Networks
Autoencoders

ABOUT THE TRAINER

AARON LAM
SENIOR SOFTWARE
DEVELOPER
CAROUSELL

Aaron started out in learning applied mathematics before he decided to take a fateful turn towards software development. Graduating from the world renowned HackReactor bootcamp, he proceeded to hone his craft working for various tech firms like Yahoo, utilizing React and Node JS to develop web applications.

He now works as part of the integral team behind one of Singapore's most popular e-commerce platforms, working on Carousell's frontend and backend systems.

COURSE FEES

Original Price: SGD\$1,000.00

Shopee League Participant: SGD\$500.00

Students (with a valid student pass) will enjoy an additional SGD\$250.00 off!

COURSE BREAKDOWN

01

Data Structures

02

Binary Tree (BST)

03

2D Arrays

04

Link-list

05

Algorithms

06

Binary Search

07

Depth or Breath first search

08

Pre, in or post order traversal
